

Autumn Fun

While we are in the Autumn Season, let's have some fun creating something Autumn-y.

As usual, #youdowhatyouwant! Follow along and create a scene, do monotangles – especially if you like to make cards and want to have a way to personalize them with some of your work. Maybe you want to create some decorations with your Zentangle® art... You can work on paper or plastic pumpkins or wood cut-outs or all of the above.

Items you will need:

- Surface: Zentangle tile, or other paper or sketchbook of your choice. Color/shape of tile or paper doesn't matter either. **OR** a plastic pumpkin or flat wood cut out. There are a lot of neat fall shapes and signs. I found no need to prep the wood before drawing on it.
- Pens: This will depend on what you are drawing on. For pumpkins, paint pens or permanent markers work great. Wood cut outs, you can use markers, micron, and/or gel pens.
- For shading: Graphite pencil, colored or chalk pencils. (Maybe a grey marker for shading on plastic pumpkin? I don't usually worry about that on plastic pumpkins.)
- For highlighting: White gel pen, charcoal pencil, colored pencil.
- Tortillion or stump (Or maybe cotton swab, to blend.) if you are using wood or paper.
- Just grab all your stuff! LOL

Please read all of this information prior to paying for the class (paying = registering). Contact me with any questions.

Tangle Addicts Club Members will be automatically registered. (Info on Membership: <https://tangleaddicts.wordpress.com/tangle-addicts-club/>)

Need to purchase supplies? Go to: <https://tangleaddicts.wordpress.com/the-store/>

****LOGIN NOTES:** I do not use Zoom - I use a platform called Online Meeting - URL is GoMeet.com Here is a link for technical info:

https://support.serverdata.net/app/articles/detail/a_id/15704

Please allow time to potentially download a program for this platform. It also works with Chrome.

You will receive a link via email from Online Meeting about 10-15 minutes prior to the start time.

I, kindly, ask that everyone keep their webcams off, and mic's muted during the class so everyone has a great experience. Of course, though, open your mic if you have a question. AND at the end, we have the "big reveal" and everyone opens their webcams to show off their results - and I take a screenshot.

I usually log on 5-10 minutes early to get myself set up. Feel free to jump on early to do the same. 😊 If you get an error when logging in, try again. It could be that I haven't started the meeting yet, but sometimes, I have a weird error where I just have to try again.

For best results:

Make sure your device is plugged in or has a good charge.

Be close to your WiFi Source and if you can be the only person on your WiFi, that helps with bandwidth.

Exit other programs on your computer or device.

Mute yourself, especially if you have noise in your background.

Be ready to have some creative fun!!

I will take a screenshot at the end, and will share via email and post, and appreciate if you email me a picture of your work. Heather@tangleaddicts.com I am adding them to a gallery on my site for all to see and share.
