Chop Shop Class

Description:

What's a chop, you ask? From Wikipedia: “. . . in an East and Southeast Asian context, [a chop] is a general name for printing stamps and impressions thereof which are used in lieu of signatures in personal documents, office paperwork, contracts, art, or any item requiring acknowledgement or authorship.”

Step 7 in the Zentangle Method, is initial and sign. This is where those that have created a chop will use it. So you know – it's ok if you don't you can just initial.

In this session, we will be exploring how you can create your own chop. Our special guest instructor is our fellow TangleAddict, CZT Alyssa Herget. In her book, [Tangle Explorations](#): The Basics, Aly shares ideas on how to develop your own chop. In preparation for this class, Aly has developed some extra content – it's amazing! This is being provided, exclusively, to those that register for the class. It may turn up in another book down the road, but we will get a first peek!

All you need to bring is your regular tools and creative mind.

I use the platform, Online Meeting. Click [HERE](#) for technical requirements.
