Map Tangling

Tiles are prepped and now what? In my research, this concept has been around for a while in different forms. I've seen it called Map Tangling (more recently) and Splat Tangling – I've added as many name options as I could find, Splodge, Splot, Splat, Splish, Splash (if you have that tune in your head now – sorry! Hahaha)

No matter what you want to call it, we will be exploring ideas and techniques to achieve this fantastic result.

Items you will need :

- Your prepped tiles/paper
- Micron Pen or other fine line pen. Thin and thicker nibs would be handy.
- White Gel Pen. Multiple sizes if you have them
- Pencil (regular no. 2)
- White Charcoal or Chalk Pencil
- Tortillion, at least 2 one for graphite and one for chalk.
- Heck grab all your stuff – you never know in what direction you may be inspired!
